A Community Newsletter **The Daily Ceilidh**
in association with

LANGABHAT MEDICAL PRACTICE

Welcome to Issue 18 of the Bernera News.

Summer is drawing to a close as we were treated to a brilliant show of the northern lights this week, and with the nights drawing in, our thoughts start to turn to winter.

It's been a dry summer and hopefully this means your sunflowers have thrived and grown tall. We've received some brilliant entries for the competition so far and hope that you'll be sending your pictures in soon (we thought we were onto a winning pair until the chickens got into the vegetable patch and ate them both). Closing date for entries: 30th September.

The winner will be announced in the next edition and there's a lovely prize up for grabs, some garden centre vouchers and a cheese board from Forage at Croft 22.

Don't forget that we'd love to hear from you if you have something to share.

BERNERA	2.30pm - 5pm	CLOSED	10am - 3pm	CLOSED	8am - 1pm

Protected Learning Time

Closed for staff training: the Practice will be closed for staff training every second Wednesday of the month, eg Wednesday 13 October and Wednesday 10th November, from 1 – 6pm except for urgent calls. If you have an emergency please call on the usual number: **01851 860 222.**

Social distancing rules from 9 August

Physical distancing remains in place at health care settings across Scotland since Monday August 9 when COVID-19 restrictions were lifted elsewhere in the country. Hospitals, GP surgeries and dentists are among the locations which continue to observe the current two metre distancing requirement to help control the spread of the virus. The measure will be reviewed as the NHS remobilises safely from the pandemic.

Triage process – new phone options from 14 June 2021

In order to improve the service for patients the Practice has made a slight change to the way we triage patients looking for GP/ANP appointments. Since Monday 14 June when you phone the Practice you now have these options:

Option 1 is a dedicated line for appointments, so if you press 1 you will be transferred directly to the clinical Triage team.

continued on page 2

LANGABHAT MEDICAL PRACTICE CONTINUED

Option 2 is for any other queries, so you press 2 for repeat prescription requests, changing appointment dates and general enquiries etc.

Our phone number remains the same: **01851 860222**.

Reminders

Patients are asked to re-order medication in good time as we are still working to a 3 working day turnaround for prescriptions. We will always do what we can if you need your medication sooner than 3 working days. If patients wish to speak with a specific clinician, please be aware that it can take up to 5 working days for them to be able to call you back. It may be quicker to call the clinical Triage team for a telephone appointment as all clinicians can access patients' notes, as needed.

Childhood immunisations

On 3 August, the Health Board took over the scheduling of child immunisations. Clinics are held as follows:-

Borve - Monday

Leurbost - Tuesday

Carloway - Wednesday

If you need to cancel or reschedule an immunisation appointment, please contact the Health Board direct on **01851 708028**.

UPCOMING BCA EVENTS

The Bernera Community Association has sold out of tickets for September 25th MND Charity dinner. You can still buy raffle tickets via any of the committee members, or by messaging Jess Macaulay via the BCA FB page. Alternatively you can contribute through the Just Giving page being run by Amy Macleod on behalf of the BCA. **www.justgiving.com/fundraising/berneracommunityassociation**.

There is a Craft Fair and fundraising day planned for the 4th of December, please get in touch if you would like more information or to book a table.

The BCA is also pleased to announce that they have been given a funding grant to employ an administrator for the community centre. If you would like to receive a copy of the job description or any other information, please contact the BCA on **berneraca@gmail.com**.

MOTOR NEURONE DISEASE (MND)

Motor Neurone Disease (MND) is the general name given to a group of illnesses which affect the body's motor nerves - these are called neurones. In a healthy person, the motor neurones carry signals from the brain directly to the muscles. However, MND stops these signals from the brain reaching the muscles. Therefore, over time muscles weaken and eventually stop working.

There are three main types of MND, each of which affect the neurones and the muscles in slightly different ways. MND is a progressive, incurable disease. The progression of the illness depends on the type of MND, though. It also affects everyone slightly differently.

If you'd like to find out more take a look at **www.mndscotland.org.uk**

BERNERA INDOOR BOWLS CLUB

With the removal of most Covid restrictions the Bowls Club has restarted at the Community Centre with play taking place on a Tuesday afternoon in the main hall for the time being.

Anyone interested in playing, absolutely no experience is needed, will be made very welcome. We meet from 1.45pm with play starting at 2pm until 4pm, and of course have a tea break in the middle.

Bowls can be provided for those who do not have their own but we do ask that you bring a change of footwear so that outside muck is not deposited on the mats.

There is a small £2 per session fee to cover the cost of hall hire, refreshments and equipment.

We are following Covid rules as they now apply and also cleaning the areas of the hall we use, which we all help with. If interested please come along when you are free, there is no commitment to how often you play.

ALL SORTS CLUB

This social club has also started up, following Covid requirements and cleaning. We meet in the Small Hall on Wednesday afternoons between 2pm and 4pm, please use the North Door to get in.

Our aim is for local people to meet and catch up as well as enjoy themselves. We play boardgames, not compulsory, chat, have tea and cake and sometimes even a guest speaker as well as the occasional trip out for a visit or something to eat.

We are also members of Age Scotland and provide information sent out from them. Age Scotland have also given us a small grant from their Resilience and Recovery Grants Programme to help with our restart costs for which we are most grateful.

A small £2 charge is made for each meeting to cover our costs and help pay for outings. All are very welcome to come along and we hope that to see you at some point.

BERNERA BAKES... SALMON QUICHE

INGREDIENTS:

- 1 (8 ounce) package Cheddar cheese, cubed
- ¼ onion, diced
- 4 eggs
- 1 (12 fluid ounce) can evaporated milk
- 1 pinch salt
- 1 pinch ground black pepper
- 1 pinch garlic powder
- 1 pinch dried parsley
- 1 pinch dried sage
- 1 (14.75 ounce) can of salmon, drained, flaked and bones removed
- 1 (9 inch) frozen pie crust
- ½ cup shredded Cheddar cheese

METHOD:

1. Preheat oven to 375°F (190°C)
2. Place 8 ounces of cubed Cheddar cheese, onion, eggs and evaporated milk into a blender.

4. Season with salt, pepper, garlic powder, parsley and sage, then blend until smooth. Spread salmon over the pie crust.
5. Sprinkle ¼ cup of shredded Cheddar cheese then pour the egg mixture on top.
Top with the remaining ¼ cup of shredded cheese
6. Bake until a toothpick inserted into the centre comes out clean (about 30mins)

MEDITATION, MINDFULNESS AND THE LAST OF THE MIDGE

Long Term Conditions Hebrides (LTCH), a small voluntary organisation that runs activities for people on the island with long term conditions, were grateful to be able to get together on Saturday 28th August. This was the first time our members met up face to face since Covid-19 officially hit our shores in March 2020.

Gathered outside in the grounds of the Cabarfeidh Hotel, sitting peacefully in a circle, Dr Gail Cunningham handed out pebbles, carved softly by the Atlantic and found at beaches around Eoropie, Ness. These stones could be gently held during meditation, the first of which was a body scan. Gail's soothing and reassuring tone of voice lulled us all quietly into meditation. The occasional noise of passing cars could be likened to thoughts passing through and the more obtrusive midge tickle only reminded us that by practising meditation regularly, life's inevitable difficulties become easier to manage. Mantras sung in the natural acoustics of an outdoor environment were a pleasure for me to share, and although I didn't sing them each 108 times, I am hoping to be at least one step closer to divine consciousness!

We all joined in together for some mindful movement, enjoying the whole of each present moment. Gail then led us in a walking meditation under the canopy of trees, last of the green before a mixed palette of Autumn hue, some with our shoes and socks off and aware of the soft moss or brittle twigs beneath our feet. A loving kindness meditation closed our outdoor session together. Over tea & cake in the foyer lounge of the Cabarfeidh, the cumulative positive and caring energy felt from those involved in Long Term Conditions Hebrides was a gentle reminder that loving kindness goes a long way.

This activity was funded by the Health and Social Care Alliance that is financially supporting LTCH's activities over the next 2 years. The volunteer committee is grateful to the Alliance for the grant and to the Cabarfeidh Hotel for the use of their facilities.

LTCH currently holds four activities weekly including self-management sessions, mindfulness meditation and yoga via Zoom. LTCH intends to provide a special taster session to celebrate Self-Management week. Check our Facebook page – Long Term Conditions Hebrides - for details.

Recently, LTCH has been delighted to have been shortlisted for The Alliance's Self-Management Community Project of the Year. The winner will be announced on September 29th, during Self-Management week.

If you are interested in the work of LTCH, please feel free to get in touch with info@ltch.org.uk

SEED COLLECTING

The Woodland Trust is in search of volunteers to help collect native tree seeds this autumn. Native Woodland in the Western Isles is paramount to preserve habitats for future biodiversity. From a survey undertaken in 2007, a number of key sites have been identified for restoration and enhancement. All they need now are the seeds to plant them!

If you are interested in becoming a volunteer, or have any questions about this project, please contact Viv Halcrow on **0343 770 5856**, or email vivhalcrow@woodlandtrust.org.uk

SPÙINNEADAIREAN - MARA

Anns na leth-cheudan is na trì ficheadan cha bhitheadh clann a cluich geamaichean eiligtronaigeach fhathast, mar sin chaith iad tuilleadh tìde a-muigh.

Chluicheadh iad geamaichean àbhaisteach, mar glacadh, sgiobadh, gillea-cruidh, poleis is reubairean agus mòran eile.

Ach 's e spùinneadairean-mara an geama a b' fheàrr le mo bhràthair beag agus a charaidean.

Bha seann amar - ionnlaid anns an achadh agus rinn e bàta barrail. Bha iad uile aig an aon ràmh gun robh feum aca air pitheid, ach mar a bhiodh dùil, cha robh pitheid ri fhaighinn.

Gu h-obann bha beachd aig aon de na balaich: gheibheadh e coileach

na àite. Ruith e dhachaigh is thill e air ais le coileach eireachdail.

Aon latha bha iad ag iarraidh bàta eadar - dhealaichte, bàta nas àirde. An toiseach cha do lorg iad rud sam bith freagarrach ach an uair sin chuimhnich cuideigin air a' bheith mhòr ri taobh a' gheata againne.

'S e am foghar a bh' ann agus bha mo mhàthair ag obair san cidsin leis na dorsan dùinte. Shrèap na balaich a' chraobh agus bha an geama a' còrdadh riutha anns a' bhàta ùr. Bha mo bràthair na sgiobair an latha sin.

Às dèidh greis chaidh e suas chun a' mhullaich. Bha e a' coimhead thairis air a' mhuir oir bha e dòchasach gum faiceadh e bàtaichean eile làn ulaidhe.

Gu mì - fhortanach cha robh e faiceallach agus ghlac e a ghaileisean air geug!

Nuair a dh' fheuch e ri am fuasgladh, thuislich e agus chrìochnaich e a' crochadh bun os cionn.

Dh' èigh e: "Cuidich mi! Cuidich mi!", ach bha eagal mòr air a' chloinn eile agus ruith iad air falbh.

Chunnaic nàbaidh na bha air tachairt. Thug e fàradh leis agus chuidich e am balach a-mach às a' chraoibh.

Nuair a chuala ar màthair an naidheachd bha i feargach agus thòisich i air trod ris an spùinneadair-mara beag.

Às dèidh an tubaist sin cha robh cead aig na balaich cluich anns a' chraoibh-bheith a-rithist.

100 IN 1

As no doubt most of you are aware, Catriona Davis of Breaclea has recently been given a working diagnosis of Motor Neurone Disease. This incredible lady has always been at the heart of community life here in Bernera, and has made such a difference to so many peoples' lives.

Catriona's family have been blown away by the fantastic support they have all received, and say they can't thank everyone enough for all that has been done. As a way of showing their appreciation for just some of the support that they've received they have set themselves a challenge of raising money for MND Scotland.

MND Scotland provides care and support to people affected by Motor Neurone Disease (MND), as well as funding vital research into finding a cure.

Earlier in the summer, family members Tim Gray and Michael Sharkey set themselves the massive challenge to raise money for MND Scotland by playing 100 holes of golf in one day. Starting at 5.30am the day would consist of 5.5 rounds of golf and around 15 hours of play!

After an incredible 19 miles (33 kilometres / 33,000 yards) of walking they completed this amazing challenge on Monday 9th August, and have raised an absolutely incredible £7,350 to date.

If you would like to donate visit www.justgiving.com/fundraising/berneracommunityassociation

BERNERA COMMUNITY DEVELOPMENT TRUST

The Scottish Salmon Company, the current owners of the disused hatchery buildings and the surrounding one acre of land, have agreed to sell the property to the Community. The Great Bernera Community Development Trust (GBCDT) are applying to the Scottish Government Land Fund for the necessary purchase price.

The funding application requires specific details of the use(s) the Community proposes for the property. While some specific ideas have been suggested at GBCDT meetings, we would like everyone on Bernera and Tir Mor to have a say in deciding what would be the best use or uses.

All those with ideas for uses that would benefit the Community are encouraged to add them to the list. Please feel free to either add your name, or to remain anonymous. A suggestion sheet will be made available at the café in the hall, can be sent to the GBCDT email below or on the poll on our FB page.

There may be an opportunity to vote for the most viable suggestions, once this survey is complete, if the GBCDT needs help to make a decision.

This could take place via a voting leaflet which would be delivered to each home. If you would like to make suggestions or have any questions, please contact us on **trustbernera@hotmail.com**.

FORAGE AT CROFT 22, KIRKIBOST

We are pleased to share with you that **'Forage'**, our small honesty shed, is now fully opened after a couple of weeks of soft launch.

We supply local produce from our Croft, around the Western Isles, the Highlands and Scotland, with the aim to become a low food-miles, foodie heaven.

We restock the fresh bakery, dairy, charcuterie, meat, eggs, vegetables, a small freezer section and treats, on Tuesdays and Fridays.

Everything stocked is sourced from producers that share our values and passion for Scottish food, and after our amazing local shop sadly closed in July, we decided to add a few non food essentials that locals and visitors might run out of too.

We have also started a weekly essentials food box which can be tailored to each person's needs, bringing down the food miles and enhancing collective buying power, over time. Get in touch to find out more about our Forage food boxes.

We have had this in our plan for the croft for a while and we hope that it becomes a valuable addition to the local community. You can pop down and shop, or you can text us to check if something is in stock or to order goods for weekly delivery (for a small additional fee).

There are options to pay by cash or paypal in the shed at Croft 22 Kirkibost when we're not around, or by card / Apple Pay when we are. You can contact us via Whatsapp on **07894516609** or an email to **julia@croft22.co.uk**

UIG & BERNERA FOOTBALL CLUB

This elite (!) team of sportsmen have been busy competing in the local 5s tournaments since the start of June. Initially the season didn't start well, with defeats to Ness and Apollo. During the 5 weeks of the competition the 12 teams played each other multiple times, including 1 - 1 draws against Let's Go and Lochs. The teams were then broken into two leagues. As Uig & Bernera finished 6th overall they went into League 2 as the top team.

A brilliant start to the season proceeded with a 1 - 0 win over Scottish Salmon Company, thanks to a superb finish from Mark. In another game that night Uig & Bernera were leading 1 - 0 against Harris thanks to a goal from D (Steven). However, the game had to be abandoned after an innocuous challenge led to D dislocating his knee and ending his season. The game was finished the following week, with Uig & Bernera recording the biggest win of the 5s, with a 7 - 0 result! Adding to a goal by DS, Seamus scored 2, Neil another 2, alongside 1 from both Dawid (Diver) and Derek. Another win against Harris (1 - 0) that night thanks to a solo goal from Derek, with a 5 - 1 defeat against our closest challengers, NHS, despite Derek's consolation goal.

3 weeks to go until the end of the season and Uig & Bernera and NHS were separated by a single point. Harris shocked NHS that night by picking up a rare win over them, but Uig & Bernera just couldn't make the most of it after a 1 - 0 defeat to Scottish Salmon Company. However, a 3 - 1 win over Stornoway (with Derek's 1 goal, and Johnny's 2) meant we stayed top.

The following week was pivotal. A 2 - 0 win over Harris started the night, with late goals from Mark and Dawid. After going behind to Stornoway, Derek levelled things late on, before a last minute penalty was awarded which Johnny converted to a win with the last kick of the match! The final game of the night was against Apollo, who dominated the entire game and was leading 1 - 0, when in the last minute Uig & Bernera broke from the Apollo corner and Derek scored to nick a draw.

All of that hard work and skill meant that going into the last week, a point was all that was needed. Uig & Bernera played NHS first and held out for a 0 - 0 draw with a terrific defensive display. Defeats followed to Apollo and Stornoway, but no one cared one bit as Uig & Bernera had sealed the title: Winners of League 2!!!

Congratulations to the team: Callum 'Fluffy' Maclean, Mark Maclean, Brennan, Steven 'D' Kennedy, Dawid (Diver), Jonathan Macdonald, Neil Meaden, Seamus, Ian Duncan Mackay, John 'Molks' Macdonald and Derek Morrison (player / manager)

Goals scored throughout the tournament:

Derek, 8; Dawid, 4; Jonathan, 3; Mark, 3; Seamus, 2; Neil, 2; D, 2.

GUARANTEED

We have all at one time or another purchased an expensive item of equipment. Perhaps, a washing machine? A car? A quad? A Suite? A Kitchen? And accompanying the receipt for payment is normally a sheaf of paperwork including a guarantee. In the case of our washing machine the guarantee promised that for a period of 10 years after purchase, all parts would be covered for repair and replacement, if found to be faulty and not resulting from operator error.

The guarantee delivers to the purchaser a sense of security. But as the years pass and as the machine performs its tasks effectively there is no word about a guarantee or the need for one. That is, until error E05 appears. A message informing the owner that the washing machine is no longer able to wash the long list of personal and household items it had up till then worked its way through each day without complaint.

What was taken for granted – clean socks, shirts and trousers now become a scarce commodity. Brexit and / or the Covid 19 virus were not to blame – but a sock! Not just any sock but a Special Forces sock that chose to navigate its way into the inner workings of the machine to cause it to randomly stop and clear at will.

The repairman was contacted and the first thing he asked was, "When did you buy it? Is it under guarantee?". "Oh yes! The guarantee. Let me please check?" I replied. Not sure where it was lying in its 'safe place'. Where that 'safe place' was located and/or if I had ever been registered.

Fearful of not having registered the machine concerns began to flood my mind. Had I or had I not registered the guarantee? If hadn't, will I need to pay for a very expensive repair. Or worse, still will I need to buy a new washing machine?

After giving my postcode it was confirmed that it had in fact been registered. That it was still within the warranty period and that it would be repaired shortly. Phew! What a relief.

Panic over! Sock ultimately, removed. Domestic life restored! Sometimes, we can worry about things that are much more important than our washing machines breaking down.

A man approached D. L. Moody saying that he was worried because he did not feel that he had been saved from his sins.. Moody responded by asking him "Was Noah safe in the ark?"

"Certainly, he was," the man replied. "Well, what made him safe—his feeling or the ark?"

"How foolish I've been!" the man said. "It is not my feeling; it is Christ who saves!"

Now that is a cast-iron guarantee that everyone by God's grace, should register for.

Rev Hugh Maurice Stewart
Uig & Bernera
